DETAILED ACTION

1. This is the second office action in response to Applicant's amendment filed May 2, 2005. This application remains 15 claims numbered 1-15. Claims 16-20 were canceled.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1, 3 and 8 are rejected under 35 U.S.C. 102(e) as being anticipated by US Patent 6,450,458 to Bernard.

Claims 1, 3 and 8 read on Bernard as follows: Bernard discloses a coupler (See Figs 4 and 5 for example) comprising a body (100) including a bottom wall and two side walls defining a trough, the body having a body terminal end defining an overlap region (no numeral); a locking element including a spring (300) and a spring release mechanism (the biasing means of the arms in combination of the clip 500, for example), the spring including first and second spring arms (310) extending substantially generally in opposition to one another in a plane generally parallel to the longitudinal direction, The biasing means of the arms and the clip forced into a locked position; the locking

element defining a hole (for fastener 400) and a fastener (400) where the fastener is a screw.

Allowable Subject Matter

3. Claims 2, 4-7 and 9 are objected to, but would be allowable if rewritten to include all of the limitations of the base claim and any intervening claims.

Claims 10-15 are allowed with the reasons as indicated in the previous office action.

Response to Arguments

4. Applicant's arguments with respect to claims 1, 3 and 8 have been considered but are moot in view of the new ground of rejection.

Applicant's amendment necessitated the new ground of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
